Utkilen | onboard

## Utkilen agrees to enter into an agreement with | VesselMan

We are proud to announce that VesselMan last week entered into a contract with Utkilen. Utkilen AS is a fully integrated shipping company with headquarters in Bergen, Norway. The company, with a history back to 1916, was founded in 1967 and owns and operates about 20 chemical tankers ranging from around 5,000 to 20,000 dwt. in size.

“At VesselMan we are very excited to implement the cloud-based solution for Utkilen. I am delighted with this opportunity and we are thrilled to work with Utkilen” CEO Glenn Edvardsen

VesselMan will provide a cloud solution for lean collaboration and effective management of dry-dockings. A genuine cloud-based management system that streamlines dry-dockings and ship repairs. VesselMan is easy to implement on top of your existing systems, at a fraction of the traditional cost and time.
